

Find MS365 License Info

What is my Microsoft Tenant?

Your Microsoft 365 tenant is the set of services assigned to your organization associated with your public DNS domain name.

For your migration, our Team might need some more details about your current subscriptions.

Most often you'll be able to confirm this information in your [Microsoft 365 Admin Center](#).

Two
easy steps

Once in your Microsoft 365 Admin Center

From the options in your top left, click the dropdown on the **Billing** option.

Then select **Your Products**.

From Your Products, locate the license name & details, subscription expiration date, purchase channel.

Need help?

Our team is here to assist you with any inquiries related to Microsoft 365 or the Marketplace itself. Should you encounter any technical difficulties or have questions, please contact us at help@appdirect.com.
