

Azure Cost Management

What is Azure Cost Management?

Azure Cost Management is a set of tools and best practices designed to help you track, control, and reduce your cloud spending. It helps you understand where your money is going and ensures you're not spending unnecessarily.

5

Easy steps to activate

"Once enabled, this unlocks the cost management view, allowing visibility into consumption data and associated rates in the Azure portal."

Prerequisites

You need an active Azure Subscription procured through AppDirect and a role (e.g., Billing Admin) that allows access to billing features in the Azure Portal.

5 easy steps to activate:

1

Get in touch with our team at help@appdirect.com and request Azure Cost Management enablement as this feature may not be enabled by default.

2

Once enabled, this setting unlocks the cost management view for users with the proper role and access to the subscription, allowing visibility into consumption data and associated pay-as-you-go rates in the [Azure portal](#).

3

Sign in to the [Azure Portal](#). Search for and select **Cost Management + Billing** on the left-hand side.

Review **Cost Analysis** for spending insights. You can also configure **Alerts** to be notified of unusual spending patterns.

4

To learn more about Cost Management, sign up for the [Azure spending and optimization course](#).
